

This week we started doing our Star Jobs. You can choose when to do a star job, we do it by ourselves and we are remembering to move our names to the done bag.

We learnt about dinosaurs this week. We played with the dinosaur world, we build dinosaurs with screwdrivers, we had to make food for the stegosaurus because he was very hungry and we cracked open dinosaur eggs.

Outside this week we used the dinosaur masks to pretend to be dinosaurs. We roared, stomped, flew and crept.

We found lots of ladybirds. We were looking at their spots to see whether they were a double.

We have been learning about fossils. Dinosaurs were alive a long time ago and the fossils are their bones. They are all different shapes.
