

Week Six

We had to clean the classroom because we were cleaning away all the bad luck for Chinese New Year.

We had a present every day in a red sparkly box. On Friday we found out that the presents were from the horse because this year is the year of the horse.

In Maths, we were doubling numbers. When we double we have 2 of the same number. So double 1 is 2 and double 6. We were finding things outside that were doubles.

Miss B was teaching us how to use chopsticks. They were a bit tricky!
