

Week Five

If there is a fire, we need a fire engine by calling 999. We used the fire trucks to put out fires in our small world area.

This week we learn about Paramedics and had a hospital set up in our classroom. We also had an ambulance which we drive round with the sirens. We had bandages and slings to make people better.

We had outdoor learning this week. We made a den using big sticks and tarps. We pretended to toast marshmallows over a fire. They were yummy!
