

# Week Four

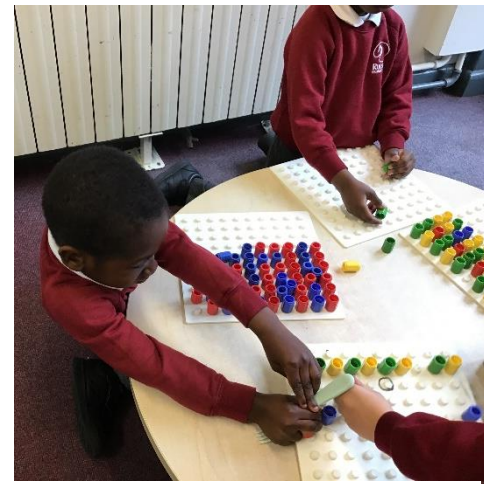

In maths, we were weighing things using scales. When it is heavier it tips down. The lighter ones goes up.

We were outside on the weighing scales, the bouncy hoppers, Lake's bus, the new wobbly bridge. We were hopping on the bouncy hoppers to find Fred the frog because he was lost in the woodland.

Inside we played with the marble run and made dragon masks.

We were making patterns with different colours. We have to make them right by swapping the colours.
